

Student Success

SUCCESS PROGRAMS AT SCC

As a Chaser, you'll have access to a wide variety of programs and tutoring options fit for all students. No matter your pathway, Spartanburg Community College welcomes you. We want to help you achieve success in any way that we can. Keeping up with classes and assignments can be a handful, but our academic services are here to help every student, no matter what.

AIM

The Aim Center offers financial assistance with books, child-care, public transportation, and educational supplies to help economically disadvantaged students. (*Requires certain eligibility requirements.)

The Learning Center

The Learning Center offers students academic support via one-on-one and group tutoring sessions. Ask-A-Tutor allows online students to submit papers for review from a professional English tutor. Tutoring services are available at all SCC locations. TLC not only provides students with free tutoring, but also a space for both quiet and group study.

Academic Advising

Academic Advising provides students with academic support ranging from semester planning and scheduling to program changes and many things in between. Advisors guide students successfully through their program of study to graduation or through a guided pathway where students are able to transfer to a four-year college or university.

Student Disability Services

Statistics show that around 20% of college students have a documented disability. If you are a student who has a disability, we encourage you to share documentation of your diagnosed disability with our office so an accommodation plan can be created. Be sure to reach out and register with our office as soon as possible to arrange accommodations.

Success Coaches

Our Success Coaches are here to help you with your strategies surrounding studying, time management, identifying strengths and goals, and how to better engage with other students as a means of building a stronger support team.

TRIO

The TRIO Student Support Services (TRIO SSS) program is designed to help students in school (and beyond)! Our complementary services include tutoring, personal counseling, assistance with academic needs, career goals and transfer planning, financial and economic literacy, peer mentoring, and more.
